

UI Design and Prototyping Report Template

Project Title: Website for IT Corporate

1. Introduction

Give a brief introduction to your project and the list of features. Summarize in a few sentences what you proposed in the ideation report.

Introduction:

Project is a high end graphical website for a corporate firm catering IT services.

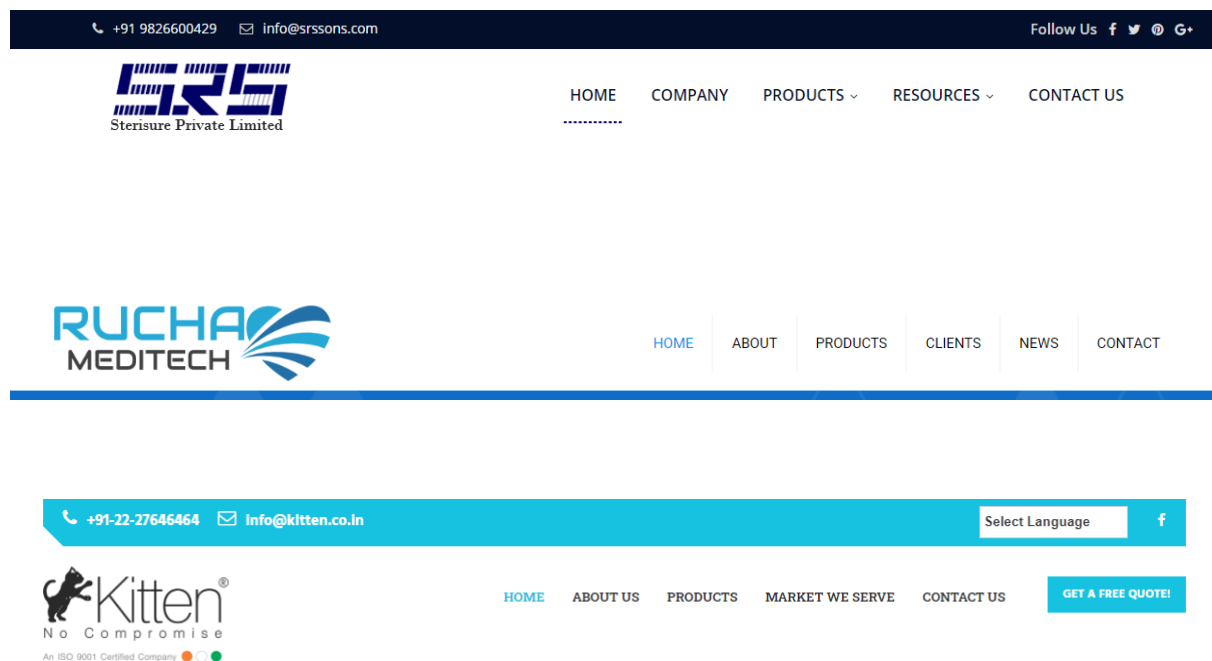

The website needs to graphical with smooth navigation and functioning.

Target for the website would be the end users or customers/clients of the company and hence an impressive presentation of services is needed.

2. User Interface Design and Prototype

Give some sample user interface layouts for your application. You can use either wireframe diagrams or prototyping tools to construct the mock representations of your UI design.
